DETAILED ACTION

EXAMINER'S AMENDMENT

2. Authorization for Examiner's Amendment to the amendment filed June 14, 2005 was given by Maurice Pirio in a telephone interview on 06/21/2006.

3. An examiner's amendment to the amendment filed June 14, 2005 appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

4. The application claims have been amended as follows:

1. (Currently Amended) One or more computer-readable media containing a computer program for annotating streaming media, wherein the program performs steps comprising:

creating annotations interactively with a user, wherein the annotations correspond to identified segments of one or more media streams;

graphically ordering the annotations in a desired order of presentation in response to user input; and

in response to a user instruction, sequentially presenting the annotations along with their corresponding identified media stream segments in the desired order of presentation

wherein the annotations are textual annotations, the media streams are audio/visual video streams, and the presenting step comprises displaying the textual annotations while displaying the corresponding segments of the audio/visual streams.

2. (Original) One or more computer-readable media as recited in claim 1, wherein the annotations comprise textual annotations.

3. (Original) One or more computer-readable media as recited in claim 1, wherein the media streams comprise audio/visual video streams.

4. (Canceled)

5. (Original) One or more computer-readable media as recited in claim 1, the steps further comprising storing the annotations and their desired order of presentation.

6. (Original) One or more computer-readable media as recited in claim 1, the steps further comprising:

storing the annotations and their desired order of presentation; and in response to a user request,

retrieving the stored annotations and their desired order of presentation,
displaying the retrieved annotations in their desired order of presentation,
and

retrieving and presenting the media stream segments identified by the retrieved annotations, in sequential order in accordance with the desired order of presentation of the retrieved annotations.

7-11. (Canceled)

Art Unit: 2165

12. (Currently Amended) A method comprising:
receiving an indication of a plurality of annotations selected by a user, wherein
each of the plurality of annotations corresponds to a media stream or to
one or more media streams;
presenting a plurality of annotation identifiers to the user;
allowing the ordering of the plurality of annotation identifiers to be changed by the
user;
seamlessly providing one or more of,
the plurality of annotations, and
at least a portion of the media stream corresponding to each of the
plurality of annotations;
wherein the seamlessly providing comprises seamlessly providing the one or
more of the plurality of annotations and the portion of the media stream
corresponding to each of the plurality of annotations in an order defined by
the order of the plurality of annotation identifiers
wherein the annotations are textual annotations, the media streams are
audio/visual video streams, and the providing step comprises displaying
the textual annotations while displaying the corresponding segments of
the audio/visual streams.

13. (Original) A method as recited in claim 12, further comprising: allowing
the user to change the order of the plurality of annotation identifiers in a drag and drop
manner.

14-47. (Canceled)

48. (Currently Amended) A method comprising:
creating annotations interactively with a user, wherein the annotations
correspond to identified segments of one or more media streams;

graphically ordering the annotations in a desired order of presentation in response to user input; and

in response to a user instruction, sequentially presenting the annotations along with their corresponding identified media stream segments in the desired order of presentation

wherein the annotations are textual annotations, the media streams are audio/visual video streams, and the presenting step comprises displaying the textual annotations while displaying the corresponding segments of the audio/visual streams.

49. (Canceled)

50. (Previously Presented) A method as recited in claim 48, further comprising storing the annotations and their desired order of presentation.

51. (Previously Presented) A method as recited in claim 48, further comprising:

storing the annotations and their desired order of presentation; and in response to a user request,

retrieving the stored annotations and their desired order of presentation, displaying the retrieved annotations in their desired order of presentation, and

retrieving and presenting the media stream segments identified by the retrieved annotations, in sequential order in accordance with the desired order of presentation of the retrieved annotations.

52-91. (Canceled)
